## **Report on the Use of the Promotion of Reading Grant**

**2022-2023 School Year**

### Part 1: Evaluation of the Effectiveness

1. Evaluation of achievement of the objectives: (e.g. reading culture of the whole school, students' reading attitude, book borrowing situation and students' engagement in reading activities)

With the resuming of full day classes, students are able to spend more time at school. The school library also spend much on purchasing books on both languages, also some books suggested by different subject panels. Hopefully students can expose more by reading books in or outside school library.

Some Apps are purchased for students' at school library. More promotions are to be done.

With the renovation in progress, less human power and resources are to be spent on promotion.

2. Evaluation of strategies: (e.g. implementing diversified and motivating activities to promote reading, reading across the curriculum and home school co-operation)

More resources on different discipline are acquired (including Chinese Language , English Language, etc), both printed and electronic ones. With the establishment of LAC, the library will gain some more insights on what to do to respond to the major area of concern of the school.

The existing exhibition will still be run to draw the students' attention to the books in the library.
